

Integra Financial Management System Finance & Accounting

As a foremost supplier of integrated business solutions to the Public, Private, Housing and Not for Profit sectors, Capita IB Solutions plays a major role in enabling organisations to achieve their financial and e-business strategies.

Integrated Business Solutions

Few companies in the software applications industry can match our focus, experience, expertise and successful track record in delivering advanced products and services to streamline and automate financial processes. Our focus in key verticals ensures that we continue to supply world-leading software applications in our clients' respective specialised fields.

Each solution in our portfolio stands alone as a best-of-breed solution, or can be seamlessly integrated to create a total enterprise solution for an organisation. Together, our solutions cover the full range of an organisation's requirements, including our financial management and procurement solution, Integra Open Enterprise.

Modules include:

- General Ledger
- Procurement
- Accounts Payable
- Invoice Approval
- Attachment Manager
- Accounts Receivable
- Cash Management
- Budgeting & Forecasting
- Fixed Assets
- Expense Management
- Stock Management
- Job Costing
- Business Intelligence
- Catalogue Expert

- Integral workflow
- Authorisation and escalation routines
- User-friendly customisation tools

The integration of our solution extends to the web through Integra Open Enterprise e-Series, a suite of "self-service" applications. Integra e-Series includes functionality aimed at remote, occasional and non-financial users, and, as with the client server interface, it is provided in a user-friendly and intuitive format with consistency across all functions.

The solution is supplied with fully integrated, powerful, industry-leading cross-modular graphical reporting and business intelligence tools. These include functionality to provide multi-dimensional data analysis, performance monitors, pre-defined standard reports and business alerts, all ensuring that information is proactively used, not just collected.

The application supports an inherent flexibility which will allow the system to reflect the management structures and working procedures of any organisation. It offers a range of facilities, including:

- Comprehensive business and management information
- Document management
- PC desktop integration
- e-business gateways

The integrated and online nature of the application, coupled with improved business workflow processes and user-friendly enquiry and report generation facilities, support faster access to management information and improved decision making.

Features

- Best-in-class solution
- Easy access to information
- Enhanced security
- Full integration
- Powerful reporting tools
- Tight financial control

Business Benefits

- Ensures compliance and transparency
- Improves efficiency
- Improves company performance
- Improves debt recovery
- Optimises cash management
- Reduces costs

Professional Services

Capita IB Solutions has an excellent track record of delivering expert support and consulting to Public, Private and Not for Profit Organisations. Ranging from top-down business analysis and enterprise modelling to database design, application implementation and tuning, a comprehensive package of methodologies, support, training and consultancy services has been developed to ensure the success of all projects within a defined framework of quality, cost and time.

Business Strategy	Technical Support	Healthchecks	Implementation & Design
Our consultants can work with you to ensure your business strategy is supported by a complete and deliverable Integra solution.	We offer a full range of technical consultancy and support services to ensure the effective delivery of your Integra solution.	Our regular healthchecks review the solution architecture and recommend changes or enhancements.	We assist clients during all phases of the development life cycle, with teams encouraged to acquire the knowledge to maintain and support the systems.

“The overriding factor in our evaluation was that we LIKED the system – a good presentation enabled us to see what the system was capable of and we quickly formed a positive feel for it. We also felt that as a company Capita IB Solutions identified what was important to us and we saw those elements of the various modules.”

Unified Processes

With Integra you can now have an integrated suite built on a unified information architecture, with the functionality you need in each individual application. These applications connect business processes within and across departmental, geographical and vertical business domains. With Integra’s depth of functionality and breadth of product offering, you can take your business further by automating and streamlining processes across the organisation.

Flexibility

Integra’s standards-based architecture allows you to integrate into a heterogeneous business systems environment, enabling you to fully leverage your investment in existing applications and adapt quickly to changes in the market or regulatory environment.

Meeting Industry Requirements

Today almost every industry, from retail to healthcare to financial services, is utilising software solutions to increase efficiency, open new markets and better communicate with customers. Capita

IB Solutions has worked with customers to understand the unique requirements of a variety of different industries and has built those requirements into the Integra Suite.

Systems for the Future

Every business is unique. Your business model, your company size, the industry in which you do business, the make-up of your finance department and your IT strategy are just some of the factors that dictate the right financial system for you.

Over many years and hundreds of successful deployments, Capita IB Solutions has developed financial solutions to fit our customers’ unique requirements.

Whether you’ve outgrown your current financial applications or your business needs a better way to handle the complexities associated with your particular industry, Integra is designed to improve your productivity, reduce your costs and speed your growth, all with the highest value, lowest risk and best customer satisfaction available.
