## Vessel Registration System

### Data Sheet

**Experience is a key component in delivering quality solutions to the marine transportation industry and though the market is highly specialised, iSOFT Business Solutions has developed a Vessel Registration Management System (VRMS) for Waterways Ireland to provide an online registration system for vessels.**

While it is not used as a basis for establishing title to the property of the vessel, it allows all relevant information about the vessel and the category of registration to be recorded.

#### Secure Solution

The VRMS provides a secure, immediate and simple method of registering a vessel and allows documents such as the registration certificate to be produced from the system.

This means that it is possible to register all different types of vessels, with all the information being stored on one central database.

In addition the system is provided with a number of features which allow waterways staff to use portable devices to carry out enforcement and inspections and record all activity which is sent back to a central site.

As the system has to operate in both the North and the South, it is able to distinguish between the two areas.

Some of the features available in the system include:

- Mobile enforcement
- Monitoring
- Accident Management
- Inspections
- Self registration
- Owner details
- Log of activity
- Registration documents
- Registration renewals
- Change of ownership

The new system is fully integrated into the Waterways website, and is simple and straightforward to use.

As soon as they log on, users are presented with structured, easy-to-follow menus which guide them through whichever process they have chosen.

### About iSOFT Business Solutions

iSOFT Business Solutions, part of the iSOFT Group, is a market leader in providing world-class integrated business software solutions to service centric organisations. With a product and services portfolio of outstanding depth, its offerings extend from eProcurement and bespoke solutions to enterprise wide financial management solutions, which provide efficiencies across the entire organisation.

iSOFT Business Solutions has a presence in all key markets across UK, Ireland, Hong Kong and Australia, with infrastructure services extending coverage to approximately 35 countries worldwide. Leveraging the strengths, innovation and global reach of its parent company, iSOFT Business Solutions ensures it meets the needs of its customers, which include large organisations, small and medium enterprises, not for profit and public sector organisations.

iSOFT Business Solutions help customers achieve results and business objectives by identifying mission critical issues and implementing innovative & customised solutions designed to generate revenue, reduce costs and fast access to management information.

With over 30 years experience, iSOFT Business Solutions unparalleled ability to successfully deliver improved processes is achieved by understanding its customers unique needs and the capability to deliver automated systems through the use of technology, including; web access, custom development, workflow, business intelligence and document management to help customers increase margins and improve cash flow.

iSOFT Business Solutions employs more than 100 professional people, serving over 500 customers including; Hartlepool Borough Council, ITN, London Ambulance, Medway NHS Foundation Trust, Northern Ireland Office, Police Service for Northern Ireland and UNISON.

Fax: +353 (0) 1 418 3101

The following screens provide an example of the look and feel of the application.

In the above example the system invites the first-time user to enter their sign up details, following which they receive a username and password to allow them to access the system and register their vessels.

Activity	Date
Request Registration Details	05/12/2009 15:00:33
Added an Additional Owner (No First Withheld Reg - 13192)	10/10/2008 09:16:03
Approved Contact Details	02/06/2009 10:25:28
Registered a New Vessel (71day Standard Reg - 12099)	01/01/2009 17:45:09
Registered with Waterways Ireland website	01/01/2009 17:43:05

Once they select the vessel registration option they are presented with the following screen which will allow them to enter the information required.

Information about the vessel is recorded along, with full details of the owners(s), insurance and licence.

A number of statistical and business analysis reports are produced, showing the quantity and type of crafts registered, along with owners' details.

In addition, the system will provide details of when the registrations are due to be renewed.
